## Introduction

All schools, academies and colleges have a **statutory duty** to have the following in place:

- **written safeguarding policy and up-to-date child protection procedures approved and adopted by the governing body;**
- **designated safeguarding lead and deputy identified and all staff understand their role;**
- **arrangements for governors to champion safeguarding/child protection and hold the school to account;**
- **other safeguarding procedures, including dealing with allegations against members of staff and safe working practice;**
- **safeguarding training at the appropriate level for all staff and volunteers, including appropriate governors at least annually;**
- **robust recruitment and selection processes for all staff and an accredited “safer recruitment” person, in line with Keeping Children Safe in Education 2022;**
- **a single central record of identity, qualifications and Disclosure and Barring Service checks for all staff and volunteers as required by Keeping Children Safe in Education 2022;**
- **an anti-bullying policy.**

This self-evaluation tool will support schools, academies and the local authority to demonstrate that they are meeting their statutory duties under Sections 11, 157 & 175 of the Education Act (2002). It will also enable schools to evidence their good practice and identify any areas for development. The completed audit can be used as evidence for Ofsted on how the school is fulfilling safeguarding requirements and to describe the actions the school is taking to continuously improve safeguarding practices. It has been updated to reflect “Keeping Children Safe in Education 2022” statutory guidance.

Ideally the chair of governors or nominated governor should work with the headteacher, principal or designated safeguarding lead of the school, academy or college, to complete the audit. Evidence to support positive responses, or actions being taken to resolve negative responses, must be referred in the third column. This might include references to training undertaken, policies, records, plans, audits or minutes of meetings for example.

Throughout the document, ‘YES’ responses are used to indicate practice that is likely to support the safety and well-being of children.

The completed audit should be sent to the Children's Multi-Agency and Resilience (MARS) Board via Standards and Effectiveness [standardsandeffectiveness@northlincs.gov.uk](mailto:standardsandeffectiveness@northlincs.gov.uk) by the end of December of each academic year. It should also be formally recorded within governing body and senior leadership meetings and then shared appropriately.
